Small Businesses Grow From Strength To Strength With A Little Help From Their SupaStorage Friends

"The Pet Shop Boys"

SupaStorage is well positioned to offer a tailor made service. This flexible approach proved to be very useful when one of our customers first moved in.

One of our longest standing customers is a online pet food retailer. The business is a new business and therefore has a number of challenges to overcome.

SupaStorage helped to ensure that storage was not one of them; giving sound advice on the correct size of unit required for expansion, with the help of our [space estimator](#)

After relaxed and friendly negotiations, we were able to agree on a price to suit their budget. We also agreed to assist in handling their stock deliveries from Europe as well as collections to their retail customers.

Our ever helpful staff are on hand to put their pallets into a temporary holding unit until they are able to put their stock away and also to ensure that the collection by their couriers goes smoothly each and every time.

SupaStorage is expert in handling [business](#) clients.

As their business has expanded, we have been able to offer them more space as and when required. They have plans and ambitions for their business to grow substantially over the coming months. SupaStorage is on hand to ensure that they have as much storage space as they need. It goes without saying that they will continue to receive the exceptionally high level of service they have enjoyed up until now.

Free Storage For Charity

SupaStorage has limited space available **free of charge** for Charitable organizations on a first come first served basis.
